Certification

In order to maximize customer satisfaction, which is our basic principle, and to realize production with zero error, the measurement and control of all processes from raw material entry to delivery are carried out with great care by our dynamic quality engineers who are experts in their field. It is our company culture to correct the error instead of correcting it.

With our professional R&D team, we are advancing by adding developing and changing technology to R&D and innovation activities in order to increase the life comfort of our valued customers. We are always working to do better with the principle of continuous improvement that we have adopted.

The mold design and mold production processes of our products are carried out by our technical and experienced staff, with our technological machinery park.

Plastic Injection Machines - Eccentric Presses - Hydraulic Presses - Static and wet painting facilities - Surface treatment machines - CNC Machining Centers - Aluminum Mechanics processing facilities - From the design of our products until dispatch of the goods making in **Albatur** factory with Mounting Automation.

Before our products meet with our customers, they are included in our product groups after they are subjected to all necessary technical tests in our test center at the prototype stage.

Our production and sales processes are closely followed with the IAS Canias ERP program. It is integrated into all our processes and can be manageability, follow-up and reporting with the barcode.

With 300+ exclusive sales points in Turkey, we serve our products to Furniture industry.

By the end of 2021, **Albatur** brand products were exported to 60+ country in international market.

Our organization, which knows that the development will be with systems, fulfills the requirements of ISO 9001: 2015 Quality Management System and renews its certificate by entering regular audits by TÜV Intercert. It constantly audits itself with our product certificate conforming to TSE EN 1527 standard, CE Certificate, ISO 10002: 2018 Customer Satisfaction Management System, ISO 45001: 2018 Occupational Health and Safety Management System and ISO 14001: 2015 Environmental Management System certificates.

## SetBox

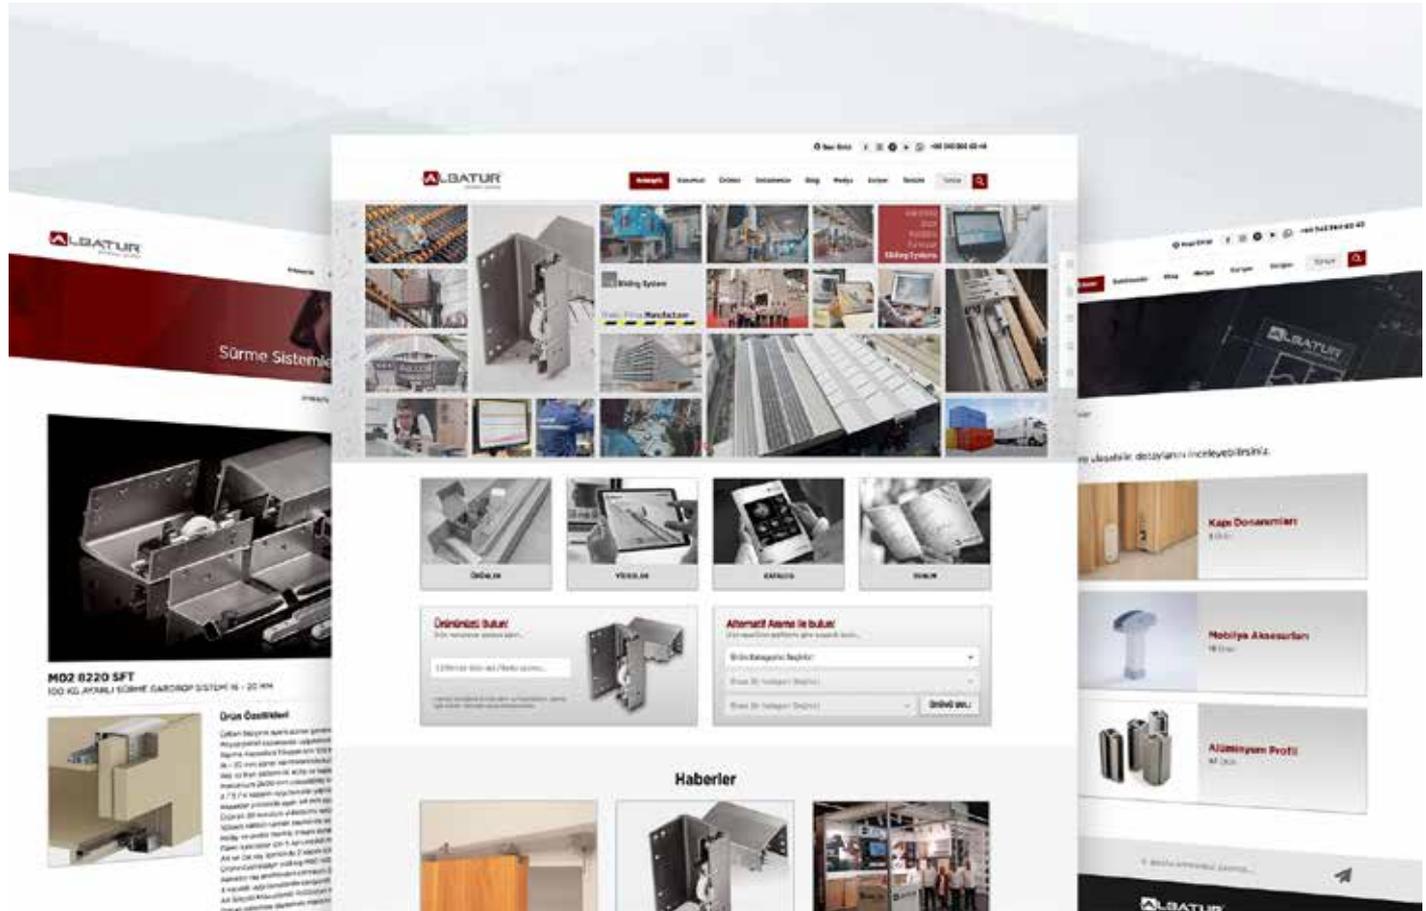

You can watch our 3D assembly and installation videos and live-action product videos; at **albaturas.com**, Youtube, Vimeo, Dailymotion pages.

We offer our display stands to our dealers so that the end user or furniture companies can experience our products.

Due to international and domestic exhibitions, we find the opportunity to share our innovations more closely with our customers.

You can easily reach technical and detailed information about all our products, assembly videos and innovations on our constantly updated website **albaturas.com**

Setbox package includes Mechanism, Aluminum Rail Profiles, Mounting Kit and Installation Prospectus. It is a packaging model created as a set of 1 cabinet in a specially designed single box supported with styrofoam. Eliminates product confusion and shipping damage.
